

INTUITIVE FIXATION AND HANDS FREE G2_MAGNETO

Four magnets integrated into the GIANT CORNER GUARDS enable greater mobility at the workplace. They allow the tablet to adhere to metallic, ferromagnetic surfaces at an individual viewing height. The device is not in the way and is held securely in place. Hands remain free for other activities.

FUNCTION

More freedom of movement thanks to hands-free working

FACTS

- Fixation of various brackets possible
- 2-/4-point carrying solutions (carabiner)
- Felt pads can be added to ensure scratch protection.

AREAS OF APPLICATION

- Workshops (car, automotive etc.)
