

# 3 IN 1 CARRYING SOLUTION

## 33\_ and G2\_HANDLE HAND STRAP HOLSTER

The HANDLE HAND STRAP HOLSTER for the TOUGHBOOK G2 or 33 is a multifunctional holder solution and fulfils three requirements for many mobile working environment.

**Effortless grip:** The handle has an extremely spacious design. This is generally convenient, but also a necessary feature when the situation requires it as in a rescue operation when every second counts.

**Convenient usability:** The HANDLE HAND STRAP HOLSTER is curved at the end. The ergonomic design allows the THOUGHBOOK to be placed comfortably and securely on the forearm.

**Hands-free & better visibility of the display:** The handle is bent in such a way that the device can be hung on a pole, for example in healthcare at the bedside during ward rounds or in the automotive industry during a QA check on the steering wheel of a vehicle.
