

HANDS FREE WHILE MESSURING

G1_POLE HOLDER

The PWA POLE HOLDER is designed to fit the TOUGHBOOK G1 precisely. It fixes the tablet to a pole or round pipe as well as to plumb rods in everyday surveying.

The device can be rotated to the desired position using the ball arm on which it is adjusted.

**FUNCTION**

Hands-free operation of the TOUGHBOOK G1

FACTS

- Passive holding tray with manual lock
- Combined with adjustable double ball mount with claw clamp
- Designed for pipe diameters from 25-40 mm

FEATURES

- Efficient design combines stability with low weight
- Use of the tablet's camera still remains possible

USEABLE WITH PWA SOLUTIONS

- PWA_G1_IrBT (LONG RANGE BLUETOOTH RADIO)
- PWA_G1_TF (TRIMBLE RADIO)
