

# LEICA FLX 100 DIRECTLY ON THE TABLET

## G2\_FLX 100 MOUNT

The G2\_FLX 100 mount solution fulfils two purposes in a time. The PWA mounting solution allows the GNSS antenna to be directly and effortlessly attached to respectively detached from the TOUGHBOOK G2.

However, if you need a pole for more precise measurement results, simply use the G2\_POLE HOLDER. It can be attached just as easily by using the original fixing flange.

### FUNCTION

Quick mount and detachment in addition to accountable hold of the LEICA FLX 100 antenna at the TOUGHBOOK G2.

### FACTS

- Easy fixation and release of the GNSS antenna
- Rugged mounting
- Easy to combine with the G2\_POLE HOLDER
- By using the original LEICA fixation flange, a quick change to the classic pole fixation is easily possible.

### FEATURES

- A safety chain - fixed to the attachment - prevents accidental loss of the fixation flange.

### USEABLE WITH PWA SOLUTIONS

- PWA\_G2\_PH (POLE HOLDER)
- PWA\_G2\_GCG (GIANT CORNER GUARDS)
- PWA\_G2\_PeHo\_B (PEN HOLDER)

### ORDER NUMBER

PWA\_G2\_FLX
